

**LET'S DESIGN
A FUTURE RESTAURANT
WHERE GUESTS,
THE ESTABLISHMENT ITSELF,
AND THE LOCAL COMMUNITY
CAN ALL BE HAPPY.**

Helix Experience

At Helix Experience, we are engaged with various businesses, including golf operations, dog grooming salons, as well as dining establishments.

Restaurants are not just places where dining guests can satisfy their appetites; they are also places that enrich people's lives.

Furthermore, the purpose and preferences regarding food are diversifying, and the "added value of food" continues to increase.

So, we ask you to design a future restaurant where guests, the establishment itself, and the local community can all be happy.

In choosing this year's corporate award, we plan to prioritize ideas that we can utilize in our own restaurants.

If you would like to be given a tour of one of our establishments, please let us know.

We are sincerely looking forward to hearing everyone's fun, innovative ideas!
