THEMES

Let's Create "Sustainable design for FOOD"

This year presents "Food culture of the future" ideas envisioned by students around the world.

Theme

1 Sustainable design for FOOD

"Food" is indispensable for life.

What can we do to ensure life continues to exist through our eating and food practices?

Food is essential for humans and animals to exist.

We are seeking designs to address social problems that deal with food, such as sustaining it, preserving its culture, and making it possible for everyone to have access to it.

Please feel free to think creatively with the following keywords as reference.

1 Food Culture

Designs that preserve food culture and connect it to the future.

2 How to eat

Designing ways of eating that lead to new behaviors.

3 Sustainable Food

Designs that address social challenges related to food and create a better future.

4 Food Technology

Designing to transform food and its consumption for the better with technology.

5 Others

Food design ideas other than above four themes.

Theme

2 Let's Create "Sustainable design for FOOD" with Companies!

Solving social issues cannot be achieved by one person alone.

Collaboration with companies and various organizations is crucial.

How can we work with companies to solve food issues for our future?

Helix Experience Award

Let's design a future restaurant where guests, the establishment itself, and the local community can all be happy.

Create a design in line with the themes and submit it according to the guidelines on the application form. Forms can be downloaded on the website: <https://www.sdgs.design.kyushu-u.ac.jp/awards/>
